

**WE HAVE
LIFT-OFF**

**Part F
ventilation
compliance is
easy with the launch of
TRIMVENT® SELECT XTRA.**

Thanks to their pioneering high lift opening, Select Xtra trickle vents stand alone in providing equivalent area ratings of over 4,000mm². And because space is at a premium, there's no change in size from existing vents, so you can comply with Part F without changing system. *It's only one small step to buy, but one giant leap to compliance.*
